Subject: Resolution 12-57

Aloha, Will you please forward my testimony to the City Council for the meeting April 25, 2012. Mahalo, Pat

"Please pass Resolution 12-57 to protect us from Genetically Modified Organizations by requiring clear labeling, and so informing the Hawaii Legislature and the Administrator, U.S. Food & Drug Administration. I am most concerned about two items: (1) The GMO-modification of 35 species of fish and (2) Seeds blown from GMO-modified farm products over nearby farms, and especially those who are organically growing our food, for me most specifically MA`O Farms and Kahumana Farm and Cafe." (Ms.) Patricia L. Patterson
